## Press Release

### Ur-Energy Announces Uranium Sales Agreement

Littleton, Colorado (March 10, 2011) – Ur-Energy Inc. (TSX:URE, NYSE Amex:URG) (“Ur-Energy” or the “Company”) is pleased to announce that it has entered into its first long-term uranium sales agreement with one of the largest producers and transporters of energy in the United States. The purchaser has nuclear power plants in several states.

The agreement relates to production from the Company’s Lost Creek project in Sweetwater County, Wyoming. The long-term contract calls for deliveries over a three-year period at a defined price for the term of the agreement.

Bill Boberg, President and CEO, stated “*We have had many opportunities over the past few years to enter into sales agreements for our future uranium production but we were not willing to do so until we developed greater regulatory clarity for our production timeline. With the recent receipt of the draft license from the NRC, our production timeline is sufficiently clear that we are pursuing uranium sales opportunities. Stronger spot pricing will allow the Company to lock in favorable profits. We are very pleased with this initial agreement.*”
