## Press Release

### Ur-Energy Announces Inclusion in the Russell 3000 Index

Littleton, Colorado (Marketwire – June 28, 2011) **Ur-Energy Inc. (TSX:URE, NYSE Amex:URG)** (“Ur-Energy” or the “Company”) is pleased to announce that it has been included in the Russell 3000 Index following Russell Investments’ reconstitution of its comprehensive set of U.S. and global equity indexes. The Company’s addition to the Russell 3000 Index was made final following the market close on Friday, June 24 and posted on <http://www.russell.com/indexes/tools-resources/reconstitution.asp> on Monday, June 27.

“We believe Ur-Energy’s inclusion in the Russell indexes will generate a greater awareness of our stock among a wider range of institutional investors and allow us to broaden our shareholder base,” said Jeff Klenda, Chairman of the Board of Ur-Energy.

The Russell 3000 Index measures the performance of the largest 3,000 U.S. companies. Russell determines membership for its equity indexes primarily by objective, market-capitalization rankings and style attributes. Membership in the Russell 3000, which remains in place for one year, means automatic inclusion for Ur-Energy in the small-cap Russell 2000 Index as well as the appropriate growth and style indexes. Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for both passive and active investment strategies.
